

Participants

The Construction Expeditions welcome participation from anyone in reasonably good health, willing to do physical labour for about 7 hours a day: men and women, 18 to 75+ (youth 14 - 18 must travel with a parent or guardian). While construction experience and Spanish language skills are assets, neither is required: both are welcome. Volunteers are accepted on a first-come-first-served basis.

Most past participants have come from towns and cities across Canada. A few American friends have joined us.
