Planning for the Front Patio – Richard Kirsh

The Executive Committee has established a task force to review issues and options for our front patio. The members are Fred Lautenschlaeger, Judy Clarke, and Richard Kirsh (chair). After consulting with the Green Team, Property Committee, Board, Convenors, and staff, the task force will make recommendations for a design and implementation plan for decision by the Executive Committee late this winter or early in the spring. The challenge: finding a balance between our many objectives and between those objectives and the City's requirements. In the meantime, the potted cedars will be moved from the Secret Garden into the planting box to give us some visual separation from the condominium next door.
